About the author	76

Male :

The sexual relationship with a female person in a radix of a male shows ♀/♌ axis . If we examine ♀/♌ axis in Radix of a male, we will be able to determine if this men desires sexual relationship with the female or if he finds sexual relationship with the female unattractive.

If ♀/♌ axis together with ☉ and/or ♃ form a planetary picture, then the men desires sexual relationship with the woman.

Of course he does not want with everyone. Only in that case, if his ♀/♌ axis is harmonic with her ♂/♌ axis.

That means, if so : then there can be a sexual relationship.

Women' s ♂/♌ = Men' s ♀/♌

If ♀/♌ axis of the men together with ♃ form a planetary picture, then he has little or no desire for a woman. If ☽ is involved in this planet picture, it will be extreme.

Used :

1-Sidereal zodiac (Krishnamurti Ayanamsa), Mean Node.

23°45'56" for Year 2000. Speed of precession is 50.2388475.

2- Harmonic 16,64,256 and 1024

Normally, when looking for any axis for an event or for a specific topic, one should examine harmonic 16,64,256,1024 and 4096, so that you have examined all 2ⁿ harmonics. For harmonic 4096 you need birth times that are accurate to the minute. In this work, the birth times are not checked whether they are accurate to the minute or not. That's why harmonic 4096 is not used.

For the persons of whom the birth time is unknown, the birth time was taken 12 o'clock and examined with harmonic 16.

Andersen, Hans Christian

2 April 1805 at 01:00 (= 01:00 AM)Odense, Denmark, 55n24, 10e23

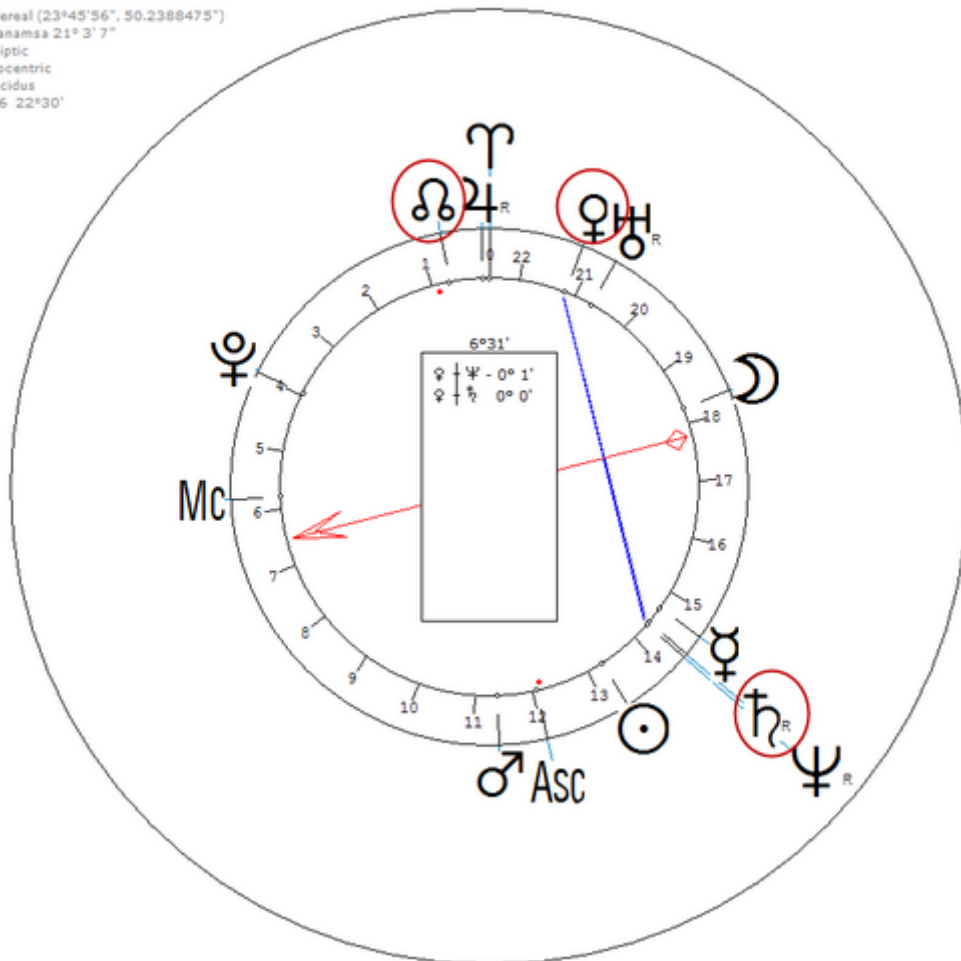

Danish writer. Sexuality : Celibacy/ Minimal (Lifetime virgin)

H256 1°24'

Female :

The sexual relationship with a male person in a radix of a woman shows $\♂/\♁$ axis . If we examine $\♂/\♁$ axis in Radix of a woman, we will be able to determine if this woman desires sexual relationship with the men or if she finds sexual relationship with the men unattractive.

If $\♂/\♁$ axis together with \odot and / or $\♃$ form a planetary picture, then the woman desire sexual relationship with the men.

Of course she does not want with everyone. Only in that case, if his $\♀/\♁$ axis is harmonic with her $\♂/\♁$ axis.

That means, if so : then there can be a sexual relationship.

Women' s $\♂/\♁$ = Men' s $\♀/\♁$

If $\♂/\♁$ axis of the woman together with $\♄$ form a planetary picture, then she has little or no desire for a man. If $\♀$ is involved in this planet picture, it will be extreme.
